## Phase III: Goal Builder for Districts

### Comprehensive School Improvement Plan

#### Understanding Continuous Improvement: Goals, Objectives, Strategies and Activities

**Rationale:** The development of goals and objectives to be obtained through strategies and activities is an essential component of executing a continuous improvement plan. In short, the Needs Assessment completed during Phase II expresses the school or district's CURRENT STATE, while goals, objectives, strategies and activities should succinctly plot the school or district's course to the DESIRED STATE. Here are the operational definitions of each integral component of the Goal Builder.

**Goal:** Long-term target based on Kentucky Board of Education Goals. Schools may supplement with individual or district goals.

**Objective:** Short-term target to be attained by the end of the current school year.

**Strategy:** Research-based approach inspired by the 6 Key Core Work Processes designed to systematically address the process, practice or condition that the school/district will focus its efforts upon in order to reach its goals/objectives.

**Activity:** The actionable steps used to deploy the chosen strategy.

**Key Core Work Processes** A series of processes that involve the majority of an organization's workforce and relate to its core competencies. These are the factors that determine an organization's success and help it prioritize areas for growth.

Three years ago our district began the B.R.E.D.S. (Bringing Rigor Equals Distinguished Students) program where school head principals meet with the Superintendent, Assistant Superintendent and Chief Academic Officer to discuss school wide data, novice reduction and overall achievement needs and goals. Over the years, this system has evolved into a comprehensive improvement plan that centers around data driven novice reduction and needed academic changes.
